

DOWN SYNDROME INTERNATIONAL GYMNASTICS ORGANISATION

ARTISTIC GYMNASTICS PROGRAMME DS version 7 January 2020.

The rules of DSIGO have developed since the initial World Championships in Leicester England 2012 and the second World Championships in Mortara Italy 2015. At the Trisome Games in Florence 2016 the general opinion of the coaches was that the structure of the DSIGO code should follow more closely the format of the FIG code with specific adaptations and exceptions to meet the needs of the DS gymnast. There are 3 great benefits of this;

- Using the FIG E evaluations and the exercise structure of the FIG will make universal judging of the competition much more accurate and facilitate the involvement of every qualified judge.
- **The use of pre-submitted D value exercise sheets will make the determination of the D score more accurate.**
- The DS category elements in 5 levels and the new DS GENERIC RULES should help to reduce the temptation to chase skills at the expense of artistry.

DOWN SYNDROME INTERNATIONAL GYMNASTICS ORGANISATION

What follows are the general rules which govern DSIGO gymnastics programmes for athletes with down syndrome

- ALL gymnasts must be registered with SU-DS
- ONLY gymnasts with Down Syndrome will be able to take part to these competitions.
- All gymnasts must have Medical Evidence of Down Syndrome-Trisomy 21 or Mosaic. This is verified by SU-DS at time of registration.
- All gymnasts must produce evidence regarding their Atlanto Axial Instability (AAI) status.
- All gymnasts must be within the age group before the start of the competition.

The gymnasts and their functional ability are most important and the coaches must understand what gymnasts are really able and capable of doing. In creating new routines all the coaches must follow the special requirements of every apparatus and **choose from among the DSIGO code skills and the FIG elements.**

The coaches must always be close to the gymnasts during their performances. Additional mats may be placed under all apparatus as described in the DS specific rules. The coach must ensure that the gymnast can perform all movements technically correctly and with predictable competence.

AGE CATEGORIES

Senior 18 and over

DS specific skills, exceptions and amendments to Senior FIG.

Junior 8 to 17

DS specific skills, exceptions and amendments to Junior FIG.

PERFORMANCE LEVELS

- 1 THE WORLD DS CHAMPIONSHIPS **ELITE** performance in MA, WA and RG. Overall Championships plus apparatus finals (format and numbers depending on number of entries)
- 2 THE DS WORLD TOURNAMENT Domestic or other NOT TRISOME **NOVICE** MA, WA and RG.
Novice level is SO routine compatible, judged on the DSIGO code.
The novice will NOT have apparatus finals.

THE DSIGO CODE OF POINTS**MA and WA GENERIC RULES**

The principles of judging Artistic Gymnastics will remain as defined in the FIG CODE OF POINTS 2017. E deductions will be the same as defined in the FIG code unless granted an exception or an amendment by DSIGO. Judges should be aware that specific DS characteristics may physically alter the mechanics and performance of certain elements and this should be taken into consideration.

EXERCISE DIFFICULTY 8 valued skills plus 1 each of any 4 groups (EG men and CR women). There are some small DS bonus points which are shown in each section and DS special rules.

+

EXECUTION, style and performance deductions scored out of 10.00.

The E jury deductions will be those listed in the FIG code 2017-2020. There are some exceptions listed here for DS gymnasts. The E jury should apply the deductions uniformly and fairly as requested by the FIG code but with some appreciation of the disabilities involved. We must all remember that this is an ARTISTIC activity and that performance is more significant than excessive or ugly difficulty.

DSIGO AMENDMENTS AND EXCEPTIONS TO THE FIG CODE

There are ADDITIONAL listed DS movements in categories DS 1 value 0.1 up to DS 5 value 0.5 which are recognised for judging DSIGO events.

Each **FIG element** A, B, C etc carry their FIG value PLUS 5 tenths. (ie. FIG A = 0.6, B=0.7 etc))

All movements recognised by DSIGO are valid progressions for gymnastics development.

MA-EG and WA-CR groups

will be valued at zero for non-listed elements, 0.3 for DS elements and 0.5 for FIG listed elements. Note some listed DS special EG and CR elements.

Each individual skill or movement can only be valued ONCE and each EG or CR is valued only ONCE in the exercise. In the exercise there can be 8 counting skills and 4 counting EG or CR values.

VAULT is categorised and valued as an exceptional case due to apparatus changes.

Some examples of DS elements remain narrative/descriptive and some have been contained in a standard FIG format. It is expected during 2018 that new DS parts will be added to the list and that the tables will expand and in time replace the descriptive text.

It is hoped that during 2018 coaches and judges will adopt, recognise, accept and possibly revalue DS elements to build up a more significant DS element list. Coaches may submit alternative elements for inclusion to increase the possibilities for gymnastics expression.

We are aware that the terminology for DS movements varies greatly from country to country and continent to continent. We hope that with time we will all recognise a single terminology. In time, complete DS figurines may appear.

START VALUE SHEETS. All gymnasts must present a **START VALUE** sheet for each apparatus **4 weeks before the event.** This can be downloaded from the SUDS website 1st Feb.

Double somersaults and twisting somersaults are not permitted and any FIG rules or values on these skills should be ignored.

Be aware of the DSIGO recommended additional matting with no deduction. Personal coaches must accept the responsibility for using these recommendations wisely.

The emphasis must always be on sound technical performance and artistry. Adventurous start values requiring heavy support, badly performed or places the gymnast at risk will be heavily deducted. The DSIGO Technical advisors have the right to stop any performance that is considered to place the gymnast at risk.

FALLS At this time, the penalty for each fall will remain as listed in the FIG code deductions. Hands brushing the floor or mats will be considered to be a fall where it was clear that a fall was prevented by the contact.

HOLD ELEMENTS The AMENDED DS deduction for a held part of 1 second showing a clear momentary hold but LESS than 2 seconds will be -0.1.

HANDSTAND any handstand held for **2+ clear seconds** will have a **bonus of 0.3.**

FREE SWINGS allowed only once **with a listed DS value.** Additional free swings are allowed but have no value and will carry any FIG execution deductions.

ANGLES of DEVIATION AND SHAPE from FIG norms.

BALANCES As a guiding principle movements that are STATIC, balances, strength parts etc, should be treated in line with the FIG code specifications and deductions.

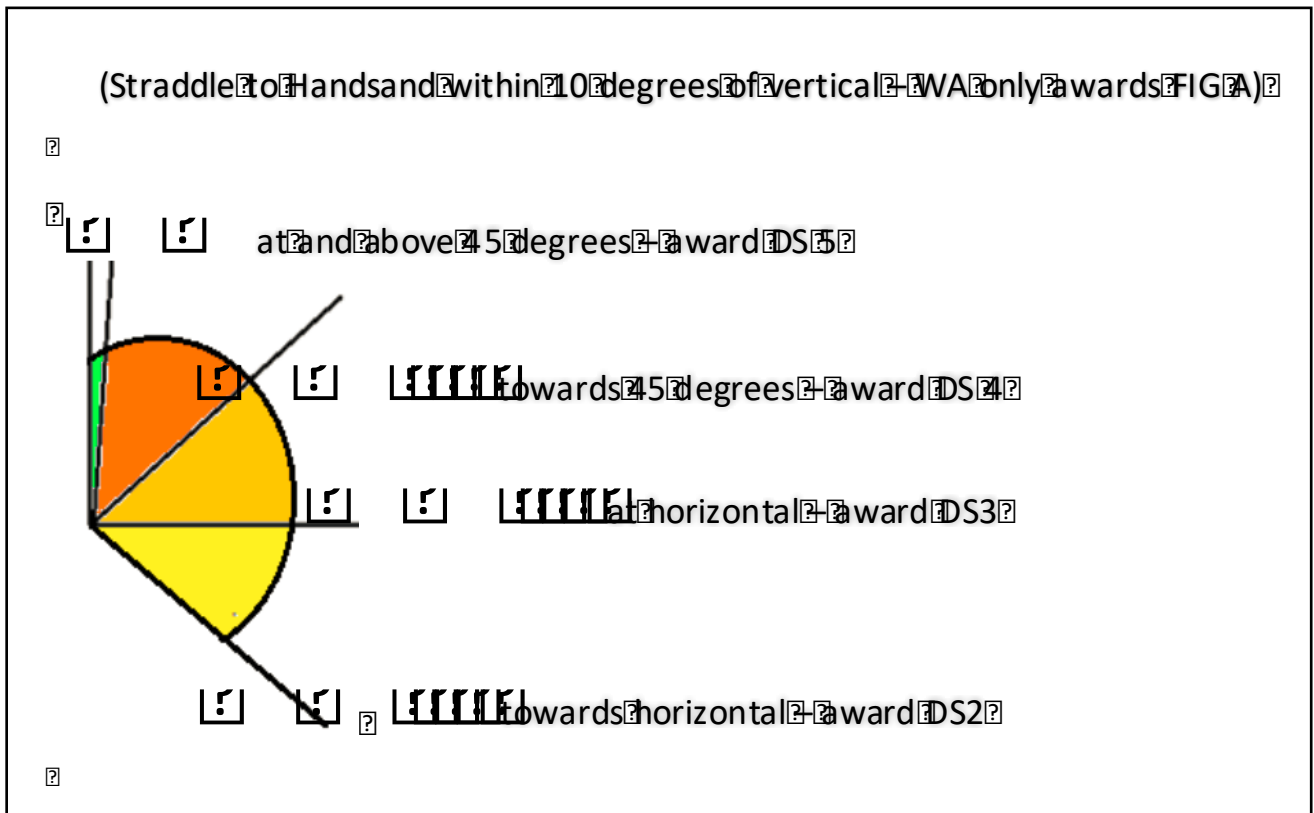

DYNAMIC MOVEMENTS Movements with a dynamic shape such as a jump, leap or acrobatic skill should have a tolerance (allowance) of around 20 degrees from the FIG illustration.

SWINGS AND CASTS There is an FIG expectation that casts and back swings should be towards handstand. It is important to develop a reality for DS gymnastics, an expectation that is achievable in time but never impossible.

DS SWINGS

For DS exercises forwards and backwards = 1 swing.
 Any free swing is allowed once for DS value then with repetition no deduction and value but execution deductions will apply.

ALL MA and WA BAR CASTS and MA support PARALLEL BAR backswing.

SWINGS IN HANG A BARS and H BAR.

The insecurity of typical DS hand grip around a bar make it necessary to restrict the values of basic swings in hang.

Any backswing in hang where the shoulders are below horizontal VALUE DS 2

Any swing where the shoulders are horizontal or above VALUE DS 3

SPECIAL DOWN SYNDROME RULES

PHYSICAL, VISUAL OR VOCAL ASSISTANCE It is accepted that Physical support or help as an immediate SAFETY measure to prevent a fall is essential and will NOT in itself be penalised. HOWEVER, the judges must determine if the physical support or intervention or help enabled a skill to be completed or a fall prevented. Would the gymnast have completed the skill without the support or assistance? Assisting a gymnast to a finishing position or stopping a movement in a safe position of balance will carry NO PENALTY but the movement will have NO VALUE, NO BONUS and will NOT be considered for Special Requirement value. Dismounts handled or touched at any stage of performance will have no value. Where a clear fall is prevented then the FIG fall penalty will be applied.

Where vocal, signed, or visual help is given as an immediate prompt to memory of the sequence of movements **NO PENALTY** will be taken.

Narrative vocal, signed, or coach mirrored visual assistance more than a simple prompt will carry a penalty of 0.5 EACH TIME up to a maximum of 2.0 per routine.

USE OF SAFETY MATS It is not the intention of DSIGO to penalise the use of safety mats but rather to recognise the additional risks of injury from a fall that DS gymnasts may be exposed to. The optional DSIGO recommendation is;

Apparatus above 1 metre in height should have 10 CMS additional padding.

Apparatus where there is an inversion or rotation involved should have 20 CMS additional padding.

Flighted dismounts should have 20 CMS additional padding.

MEN HIGH BAR. The option of a modified height (no extended swing) is ONLY allowed in NOVICE tournaments (deduction 2.0 points) and **NEVER** in World, Continental or Trisome competitions.

FLOOR EXERCISE IN BOTH MA and WA routines. The round off will be element valued at 0.6 and can only be counted for value once in each routine.

For the **EG** in MA or **CR** in WA the round off will be valued at 0.5

CORE SKILLS FLIC FLAC and HANDSPRING

The flic flac and handspring can be used **TWICE** in the routine for value if both skills are variants **OR** both are separately listed in the FIG code.

Eg handspring to stand and handspring to step out count as 2 elements

Flic from a round off and flic step out. Count as 2 elements

The round off can only be used once for value.

REMINDER MA and WA all routines, DIFFICULTY SCORE is calculated from the 7 highest value skills plus the dismount PLUS the CR/EG values (each CR/EG one time only per routine.)

SHORT ROUTINES	7 elements (including the dismount)	deduct 1.0
